

# Automatic Loading Solution

IN THE HIGH-TECH APPLICATION

A unique customized solution for automatic one-shot loading the heavy and bulky high-tech machine onto the trailer in just a few minutes!

This solution can handle a payload of 30 tons. The high-tech machine can be flexibly positioned vertically by a lifting platform and will be fully automatically loaded inside the trailer in one-shot without manual intervention.

Avoiding the risk of any damage to the high-tech machine during transport.
